

Mr Goh Keng Hock

I believe education must go beyond academic achievement to nurture well-rounded individuals of character and resilience. Students should develop intellectual discipline, critical thinking, and curiosity, while also cultivating humility, empathy, and a readiness to serve. By fostering socio-emotional competencies, resilience, and social responsibility, we prepare them not only to succeed personally but also to contribute meaningfully to their communities and to Singapore's future.

HOD Character and
Citizenship Education

York Hill
Campus

Teaching Subjects: Physics/
Mathematics

Learners for Life. Leaders of Integrity. Contributors with Compassion.
