*HOD B&E and Student*

*Well-Being,*

*Ms Serene Cheong*

"We want to be part of a college that focuses on adding quality to structures already present. There is a roaring potential within all Eunoians and we intend on working hard to facilitate changes and encourage collaboration within the school. This is something we can all be a part of - *eunoia* is all.

Our vision is to cultivate a practice of recognising and respecting people, and for developing others and ourselves.

What Eunoia means for me is making someone *that* bit happier, because we never know how much it means.

We hope for our student culture to be *thoughtful*, and to see people lending a bit of themselves to help others."

- Imran Westerhout Hasan (21-E1), 5th Student Council President, Alumnus of Outram Secondary School

## Outramian emerges Singapore Future Problem- Solving National Finals

With the dawn of technology, humans had developed a new-found aggression against the soulless machines...

Our students develop short stories related to one of the five Future Problem-solving topics: Robotic Workforce.

S2/3's Jaiaree Rattawit faces off against students from RGS and MGS next January in the national finals!

What a great start to our next mentorship programme for the year, under an exciting partnership with **Oliver Wyman** Consulting! ✨

Oliver Wyman x Access Mentorships Programme

Through the month-long programme, Secondary 4 students from **Outram Secondary School** will gain exposure to what a job in consulting might entail and understand the key considerations when choosing a future career in this field. 🧑

We are confident that this learning process will equip mentees with essential new skills which will help them land their first internship during their post-secondary education! 🎓💪

Wrapping Up Our Phenomenal 1st ACE!  
Programme of the Year! 700

With a mix of pride and fulfilment, we bring our first ACE! Programme of the year to a magnificent close! Over the course of five engaging sessions, a cohort of 40 students from **Outram Secondary School** dedicated themselves to tackling a challenging problem statement linked to the **Public Service Division** (PSD). Their final session last Thursday left an indelible mark as they dazzled a panel of esteemed PSD members with their compelling pitches and groundbreaking solutions on how to make PSD an irresistible employer for today's 15-16-year-olds. ✨

## Conversation Series with Distinguished Guest #1

Mr David Hoe  
4 January 2024  
7.45a.m. - 8.45a.m.

### Theme: Learners for Life

## Objectives of conversation series

value of real-world experiences

**MINDSET IS EVERYTHING**

power of personal stories for motivation

appreciation for diverse perspectives and career paths

recognition of continuous learning as a lifelong journey

**I am CONFIDENT**

building confidence in personal potential

valuing interactive learning experiences for meaningful contributions to personal and professional development.

## What is Conversation Series?

In 2023.... We invited our first speaker, Mr Chade- Meng Tan, an author, philanthropist and motivator as our speaker.

He shared many interesting and engaging stories from his former Google days and life experiences. Many teachers and students found the sharing inspiring.

outtramsech The first in our, "Conversation Series with Distinguished Speakers"

Today, we had the honour of having Mr Chade-Meng Tan, an author, philanthropist and motivator, as our distinguished speaker. He shared many nuggets of wisdom through the engaging stories from his former Google days and life experiences. It was truly an impactful and inspiring sharing for our students and teachers alike!

# Student Leadership

## SELF-LEADERSHIP

To lead others effectively, one must first be able to lead self.

To develop in students the desire, confidence, and capacity to take ownership of one's own growth and learning based on keen knowledge of self.

How one directs his or her life for effective and purposeful living.

### Student Outcomes

- Confident person
- Resilient Leader

### Dispositions

- Able to be accountable for one's attitude, words and actions.
- Able to persevere in the face of challenges and manifest courage, optimism, adaptability and resourcefulness.

## TEAM LEADERSHIP

Leadership is inherently a group process.

To develop students' social skills of influence such that they can lead others with competence and care.

Honing students' ability to manage relationships effectively for purposeful living.

### Student Outcomes

- Active Contributor
- Effective Communicator

### Dispositions

- Able to manage team dynamics, build trust, and also develop and groom members.
- Able to convey information verbally and non-verbally in an effective and efficient way.

## THOUGHT LEADERSHIP

Honing students' capacities to influence and create value through quality insight and innovation.

Student can apply fresh perspectives to authentic tasks that are crucial to achieving positive outcomes.

Able to exercise critical and inventive thinking to set the strategic direction and break new ground in one's field in order to engender positive changes.

### Student Outcomes

- Uplifted Leader
- Innovative Thinker

### Dispositions

- Able to challenge personal assumptions, seek other perspectives and ponder possibilities in the spirit of continual learning and improvement.
- Able to take calculated risks to initiate well-intentioned change to the status quo.

Just now · 🧑🏻

A lovely surprise that came in the mail today. A note of gratitude from the YEP Team when they were in Vietnam. Where we explore the world and stay rooted to where we belong. Where we show gratitude wherever we go.

This is Outram ❤️🧡💙
